Dear Dr Toufic

Case reviewed. This patient post gastric sleeve has severe reflux proven by barium.
The surgery proposed is indicated and the consumables requested are needed for the operation

Regards

Tarek

Hi,

The below is the response from our SMO (Dr. Tareq Berjawi, Specialist Bariatric Surgery). Confirmed the surgery is indicated and medical supplies are within the standards, he also expressed that more GIA may be used especially there were two previous bariatric surgeries were done. It's a big and risky surgery, but highly indicated for the reflux.

Subject: First suspicious Case/ Solidarity/ SOL/00016277 / Taanayel hospital/ Abir Salha Salloum/9804-4ff5-af4c-067a/ 24A82

Dear Doctors,

I hope this email finds you well.

I am writing to report a suspicious case regarding, Ms. Abir Salha Salloum 37-year-old patient, insured under Solidarity individual since October 23, 2023 under class K, imported from Securite insurance, with a specific exclusion on sleeve operation and all related complications.

Treating physician requires to perform a laparoscopic Roux-en-Y gastric bypass (CPT code 43842) for the patient to treat her gastro-esophagus reflux.

Operation is scheduled for October 29, 2024, at Taanayel Hospital, under the care of Dr. Nidal Youssef.

The claim was submitted by the insurer in reason of Ex-gratia coverage.

Currently the adjudication is missing the following requirements:

1. **Contract with Taanayel Hospital** : Mayassa has been informed and she is in charge of completing the needed agreement.
2. **Completion of documents**: This includes mednet admission report, gastroscopy results, imaging results, and the proforma (Already requested from hospital)
3. **Total Estimation Cost** : To inform the insurer regarding the Ex-Gratia amount accordingly.

Meanwhile Insurer was updated via chat regarding the needed documents (attached for your attention).

Additionally, admission office at Taanayel Hospital was demanded to fill properly the Mednet Medical report for admission in order to facilitate a smooth admission process.

Finally, a phone call with the patient revealed that a laparoscopic mini gastric bypass was performed in 2017 at Libano-canadian Hospital by Dr. Chakhtoura, Explanations vis-à-vis the pending matters were made to our client, and she was informed the

necessity to make a reservation for operation date in order to retrieve the proforma.

Once all required documents are complete, we will route them for your kind verification of medical necessity.

Following that, we will update the insurer to settle the final Ex-Gratia coverage amount.

Thank you for your attention to this matter.

Best regards,

Iman Saab
